Updated 26 June 2018

1. Equipment

1.1 Food Manufacturing

1.1.1 Automated Cake Slicer

Automated cake slicer is capable of cutting a variety of cakes. The machine features product holders and fully automatic product positioning, indexing, and divider insert feeding. Portions will all be of consistent size no matter who operates the machine.

Support Level

For SMEs: 50% of cost of equipment, up to \$15,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.1.2 Automated Carton Erector System

Automatic carton sealers are case equipment that seals the top or bottom of a case with tape or glue. Typically, the minor corrugated flaps are kicked and plowed closed as the cases are transferred. As the cases enter the compression section, the major flaps of the carton are closed and a hot-melt adhesive is applied.

Support Level

For SMEs: 50% of cost of equipment, up to \$25,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.1.3 Automated Dough Filler/Depositor

An automatic depositor portions dough, fillings and batters onto moving or stationary lines. Portions will all be of consistent size no matter who operates the machine.

Support Level

For SMEs: 50% of cost of equipment, up to \$12,500 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.1.4 Handheld Electric Fish Scaler

The handheld electric fish scaler makes fish scaling effortless.

The unit removes the scales from fish of any size without damaging the skin.

Support Level

For SMEs: 50% of cost of equipment, cap at \$5,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.1.5 Turntable Automated Pallet Cling Wrap Machine

Turntable automatic pallet cling wrap machine require no operator. Pallet loads will be automatically stretch wrapped according to pre-programmed parameters. The only operator intervention required is changing of stretch film when the roll is empty.

Support Level

For SMEs: 50% of cost of equipment, cap at \$5,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.2 Food Services

1.2.1 Automated Dishwasher

The single tank automated dishwashing machines replace manual dishwashing, and can be used for glassware or dishes. It comes with automated drain pump, detergent and rinse pumps.

- A hood-type machine come with a vertical lift hood
- A front opening dishwasher is equipped for installation in freestanding or undercounter-type operations

Min capacity: 15 litres tank capacity

Support Level

For SMEs: 50% of cost of equipment, capped at \$2,500 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.2.2 Automated Noodle Boiler

The automated noodle boiler automates the noodle cooking process.

Min Specifications:

- Auto lift functions for the noodle baskets to be automatically lifted out of the boiler at pre-set timings
- Digital timer: Each basket is programmed according to its own set timing.

Min capacity: 3 noodle baskets

Support Level

For SMEs: 50% of cost of equipment, capped at \$6,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: ≥30% ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.2.3 Automated Rice Dispenser

The automated rice dispenser stores cooked rice is kept warm in a tub. The rice is then automatically dispensed in pre-set quantities.

Min capacity: 9kg cooked rice

Support Level

For SMEs: 50% of cost of equipment, capped at \$10,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.2.4 Automated Rice Washer

The automated rice washer has built-in sensors and allow water to flow through the rice consistently. It will cut the time spent washing rice by 60%. It comes with an automatic wastewater mechanism to retain rice when draining wash water.

Min throughput: 6kg

Support Level

For SMEs: 50% of cost of equipment, capped at \$10,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR.

1.2.5 Automated Sushi Making Machine

The automated sushi making machine is a compact machine suitable for use at outlet-level. It shapes and produces Nigiri rice balls and dispenses them automatically. Once a nigiri is removed, the next one will be dispensed automatically. The weight and hardness of the nigiri can be customised.

Min capacity: 6kg cooked rice

Support Level

For SMEs: 50% of cost of equipment, capped at \$10,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.2.6 Combi Oven

A combi oven can be programmed for convection, steam and combination cooking. Its multi-functional cooking methods has a small footprint and can be used flexibly by F&B companies to cook and re-heat a wide variety of food.

Min capacity: 5GN

Support Level

For SMEs: 50% of cost of equipment, capped at \$5,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR.

1.2.7 High Speed Oven

A high speed oven uses rapid cooking technology to cook food rapidly without compromising quality. It utilises radiant heat, high-speed air impingement and side-launched microwave.

Support Level

For SMEs: 50% of cost of equipment, capped at \$5,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR.

1.3 Logistics

1.3.1 RFID System /Scanners

Automated Radio-Frequency Identification System for:

- Storage and retrieval of information; and
- Inventory Management; and
- Asset Management; and
- Real-Time Location Tracking; and
- for Security.

Support Level

For SMEs: 50%of cost of equipment, capped at \$20,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Support Available:

Purchase & Installation of Equipment which can include:

- RFID Reader (compulsory)
- RFID Tunnel Gantry (optional)
- up to 20,000 RFID Tags (compulsory)
- Software License (compulsory)
- Implementation and Training for Tracking Software (compulsory)

Additional criteria: ≥30% ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.3.2 Vertical Carousel

Vertical storage and retrieval system designed to save floor space and maximise vertical space for inventory storage. The Carousel consists of carriers that rotate vertically and deliver stored inventory (e.g. Spare Parts, Small Parcels) to the operator on the ground.

Support Level

For SMEs: 50% of cost of equipment, capped at \$30,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Only supports:

Purchase & Installation of Equipment (depending on storage density)

- Unit Height 6'9 to 23'6; and
- Carrier: Width 86.9" to 111.9"; and
- Depth 16.3" to 24.2"; and
- Load Capacities 387lbs to 1,102 lbs; and
- Net Unit Load Capacity 2,800 lbs to 12,000lbs; and
- With operator Interface (Console); and
- With software linked to Inventory Management System

Additional criteria: ≥30% ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.4 Precision Engineering

1.4.1 Automated Tools Management System

Centralized tool storage, dispensing & inventory management (IM) system with 2 key components:

1) Smart IM software:

- Monitors tool inventory, stock level & consumption rate;and
- With customizable option to link to ERP or supplier online automated ordering process; and
- Controls the issuing of tools per user's security access level

2) Tool dispensing hardware

- Hardware can be in the form of a drawer or coil vending system.
- Support only hardware and software

Support Level

For SMEs: 50% for cost of equipment, capped at \$14,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Unit is expandable, customizable to hold different types of tools, and fully secured

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

1.4.2 Robotic Arms

Robotic arms that are:

- Programmable mechanical arms integrated into industrial robots or collaborative robots; and
- Arms consist of segments connected by rotary and linear joints, allowing for controlled, precise and accurate movements; and
- Robotic arms are attached with end effectors designed for a wide variety of functions such as pick & place, parts rotation & placement, tool handling and assembly.

Support Level

For SMEs: 50% of cost of equipment, capped at \$30,000 grant

Mode of Payment

Direct Purchase

Processing Agency

Enterprise Singapore

Things To Note

Support excludes end-effectors, sensors, programming and integration cost

Additional criteria: $\geq 30\%$ ordinary shares (ultimate individual ownership) held directly/indirectly by Singaporean/PR

2. IT Solution

2.1 Appointment Scheduling and Booking System

2.1.1 ITC Scheduling System Version 2.1.3

ITC Scheduling System helps business to manage their daily appointment scheduling. It features doctor/therapist/consultant module, email/sms auto reminder, payment integration, and cms. It also has free website where customer can make appointment online via client's website directly.

2.13.5 Restaurant Wireless Paging System Version 0.04

The Wireless Paging System helps restaurant owner to notify their customer when order is ready. The procedure is simple. Patrons order their food and staff will issue them a pager. Once the order is ready, server will notify the patron via the transmitter. Patron receives alert and come forward to the collection counter to collect their food and return the pager. The procedure is completed.
